

Community Hospital Volunteer Opportunities

Volunteers are an essential part of Community Hospital. They bring their own unique qualities, time and energy to our patients, visitors, employees and physicians. It is our hope that our volunteers find the satisfaction and personal fulfillment that comes with serving others and being a part of a worthwhile cause. Volunteering is an opportunity for adults to give back some of their life-learned skills and for students to test a potential career path. Join us today!

Emergency Department Volunteers assist patients, families, and employees in a variety of ways. Volunteers serve as a liaison between patients and staff, offer assistance with a variety of comfort needs of patients and their companions such as a blanket or a glass of water, communicate with staff regarding needs in the department, and assist with a variety of other projects.

For more information, please contact Christina O'Dell, Director of Volunteer Services, by calling (970) 644-3541 or email codell@gjhosp.org!

Great People.
Great Care.
Great Choice!
