Community Hospital and University of Utah Health Plans Launch New Health Insurance Plan for Employers in the Grand Valley

The new health insurance plan is designed for employer groups with 5-100 employees.

Mesa County, CO - Community Hospital and University of Utah Health Plans are excited to announce the launch of a new health insurance plan for employers in the Grand Valley. A breakfast meeting and presentation will be held on **Tuesday, March 21, from 7:30-10:00 am** in the Legacy Conference Room at Community Hospital located at 2351 G Road.

Community Hospital was the first health care organization in the Grand Valley to launch a preferred network product for employer groups. Community Hospital launched the Community Health Partnership (CHP) in 2013. CHP is a health care plan designed for self-funded employer groups.

“We are extremely excited to launch our new health insurance plan for employers in the Grand Valley,” said Tawny Espinoza, Vice President of Business Development for Community Hospital. “CHP has been tremendously successful for organizations such as Mesa County, School District 51 and Strive. Grand Valley Preferred Network takes that one step further in offering small employer groups a competitive health insurance plan for their employees.” added Espinoza.

Community Hospital and University of Utah Health Plans anticipates the Grand Valley Preferred Network product will offer significant savings for employer groups with 5+ employees. Employers can choose from eight different plan options. Enrollment in the new health plans will be available starting April 1, 2017.

To learn more about the services offered through Community Hospital, please call (970) 644-3016 or visit www.YourCommunityHospital.com. To learn more about University of Utah Health Plans please visit uhealthplan.utah.edu/grand-valley-preferred.
