

Community Hospital Volunteer Opportunities

Volunteers are an essential part of Community Hospital. They bring their own unique qualities, time and energy to our patients, visitors, employees and physicians. It is our hope that our volunteers find the satisfaction and personal fulfillment that comes with serving others and being a part of a worthwhile cause. Volunteering is an opportunity for adults to give back some of their life-learned skills and for students to test a potential career path. Join us today!

Oncology Department Volunteers are an essential part of our team. Some people volunteer because they have had cancer treatment or cared for someone with cancer. Others volunteer out of a desire to be part of the community support network to support cancer patients and their families. All find it to be a powerful experience.

For more information, please contact Christina O'Dell, Director of Volunteer Services, by calling (970) 644-3541 or email codell@gjhosp.org!
