

Community Hospital Volunteer Opportunities

Volunteers are an essential part of Community Hospital. They bring their own unique qualities, time and energy to our patients, visitors, employees and physicians. It is our hope that our volunteers find the satisfaction and personal fulfillment that comes with serving others and being a part of a worthwhile cause. Volunteering is an opportunity for adults to give back some of their life-learned skills and for students to test a potential career path. Join us today!

Patient Navigator Assistant Volunteers support our wellness team and metabolic and bariatric program participants as they transition through the program. This includes assisting with the coordination of the intake of patients, patient scheduling, assisting patients in access-appropriate referrals and maintaining stock and inventory.

For more information, please contact Christina O'Dell, Director of Volunteer Services, by calling (970) 644-3541 or email codell@gjhosp.org!

Great People.
Great Care.
Great Choice!
