**Drs. Stacia Baker and William Donald Hoisington Join Community Hospital**

Nearly 50 New Providers Have Joined Community Hospital in Last Three Years

Mesa County, CO - Community Hospital is pleased to announce they have reached an agreement with two long-standing family medicine physicians in Grand Junction. Stacia Baker, MD and William Donald Hoisington, MD of Peach Valley Family Medical Center will be joining Community Hospital on January 1, 2017.

“I cannot begin to express how excited we are that Drs. Baker and Hoisington have decided to join Community Hospital,” said Chris Thomas, President and CEO for Community Hospital. “It is extremely humbling that physician confidence in Community Hospital continues to strengthen and we could not be more proud of the growth and success of our organization. The word ‘community’ is in our name for a reason. We strive to provide high quality health care in a comfortable environment for the best value in the market and we are growing to meet the community’s demand. Many Community Hospital primary care patients live on the east end of the valley and our Community Health Partnership (CHP) members including Mesa County, School District 51 and Strive have a number of employees who live in the Fruitvale area, so this will improve their access to the services provided through our CHP medical clinic partnerships,” added Thomas.

“With all of the changes in health care, we are excited about this transition,” said Dr. Hoisington. “By joining Community Hospital and the network of employed primary care physicians, we will be able to continue providing personalized care to our patients while leaving the administrative burdens to the outstanding team at Community Hospital,” added Dr. Hoisington. “Community Hospital has been experiencing tremendous growth over the last several years and we look forward to being part of this health care organization,” said Dr. Baker.

Established in January 2000, Peach Valley Family Medical Center offers a full scope of medical care for the entire family, including infants, children, adolescents, adults, and seniors. As a selected ‘Comprehensive Primary Care’ office, Peach Valley Family Medical Center strives to continuously improve patient services, engage patients in their own health care decisions and assist with coordinating care in the community when needed.

Peach Valley Family Medical Center will maintain its name, telephone number and location. Clinic staff, including mid-level provider, Nancy Lange, MSN, FNP will remain in place and become employees of Community Hospital. We are also adding a new mid-level provider, Seema Wetzel, MSN, FNP, in mid-January to better meet the needs of underserved patients in the area.

Peach Valley Family Medical Center is located at 3225 1-70 B, Suite A-4, Clifton, Colorado 81520. For more information, please contact Peach Valley Family Medical Center at (970) 434-6542.
